Eco-Friendly without Sacrificing Quality

Hangers Cleaners is Kansas City's most eco-friendly dry cleaner... period. Their all-natural cleaning processes are great for the environment and great for your clothes, leaving them clean, soft and without that FUNKY dry cleaning smell!

They use all-natural dry cleaning methods, which have been rated #1 by Consumer Reports. Because of this, at Hangers wrinkles are more easily pressed out of garments and damage to the fabric is minimized. Garments look new longer because the system causes less fabric breakdown than conventional cleaning methods.

Coupons

Hangers' pricing is already competitive with other local dry cleaners, but if you provide them with your email address they will send incredible (and funny) coupons a couple times per month. They also send out cool stuff on Facebook and Twitter so befriend or follow them if you want.

Payment

Each time you use Hangers Cleaners, your credit or debit card will be charged automatically. Your card information is held securely by Hangers Cleaners—in fact, none of your personal information (other than your name and phone number) will be visible on your bag's ID tag.
